Change Log

Date	Change Description
2014-03-05	Initial release.

Introduction

This document provides a summary of enhancements, support information, and installation instruction to upgrade your client to FortiClient (Android) v5.2.0 build 0085. Please review all sections in this document prior to upgrading.

This document includes the following sections:

- [Special Notices](#)
- [Upgrade Information](#)
- [Product Integration and Support](#)
- [Resolved Issues](#)
- [Known Issues](#)

Supported platforms

Android phone and Android tablet are supported.

Summary of enhancements

The following is a list of enhancements in FortiClient (Android) v5.2.0:

- Added a preference setting for auto-start
- FortiClient VPN (Android) standalone app

If installing the FortiClient VPN (Android) standalone app, uninstall the full FortiClient (Android) app. FortiClient VPN (Android) will not function with the full FortiClient version installed.

Special Notices

Android VPN API

FortiClient relies on the built-in VPN API in Android OS v4.0; if the VPN API is not present in the kernel, FortiClient will not function properly.

Upgrade Information

FortiClient (Android)

Upgrading from FortiClient (Android) v5.0.3

FortiClient (Android) v5.2.0 officially supports upgrade from v5.0.3 build 0068.

Downgrading to previous versions

FortiClient (Android) v5.2.0 does not support downgrading to previous FortiClient versions.

FortiClient VPN (Android)

This is the first release of FortiClient VPN (Android), and as such, upgrades from previous versions does not apply.

If installing the FortiClient VPN (Android) standalone app, uninstall the full FortiClient (Android) app. FortiClient VPN (Android) will not function with the full FortiClient version installed.

Product Integration and Support

Operating system support

FortiClient (Android) v5.2.0 supports the following Android OS versions:

- 4.0 Ice Cream Sandwich (API level 14, API level 15)
- 4.1 Jelly Bean (API level 16)
- 4.2 Jelly Bean (API level 17)
- 4.3 Jelly Bean (API level 18)

FortiOS support

FortiClient (Android) v5.2.0 is supported by FortiOS v5.0 Patch Release 5 or later.

FortiToken Mobile support

FortiClient (Android) v5.2.0 is supported by FortiToken Mobile v2.0 Patch Release 3 or later.

Resolved Issues

There are no resolved issues that have been corrected with FortiClient (Android) v5.2.0 build 0085.

Known Issues

The known issues table listed below does not list every bug that has been reported with FortiClient (Android) v5.2.0 build 0085. The bug IDs are from Fortinet's internal bug tracking system.

Table 1: Known issues

Bug ID	Description
0177106	The entered username and password are lost after screen rotation.
0177913	IPsec re-key does not work.
0179092	SSL VPN and IPsec VPN do not work with RADIUS challenge.
0211809	FortiClient will not automatically prompt and register over an IPsec VPN connection.
0212521	Endpoint registration over IPsec VPN or SSL VPN does not work on cellular networks.
0217343	The download speed is very slow through the VPN when web filter is enabled.
0218722	There is no endpoint registration pop-up message on IPsec VPN split tunnel connections.
0221085	IPsec main mode does not work.
0221980	FortiClient will not show FortiToken dialog when the FortiGate configuration has the user configured in the SSL VPN firewall policy.
